

For **Neuropathy & Hyperhomocysteinemia**

Mecovixr™ D3

Methylcobalamin 1500mcg + Alpha Lipoic Acid 100mg + Folic Acid 1.5mg
+ Pyridoxine HCL 3mg + Vitamin D3 1000 IU TABLET

Methylcobalamin : Neuron rejuvenator, enhances nucleic acid, proteins & myelin sheath synthesis.

Alpha Lipoic Acid : Improves nerve blood flow, reduces oxidative stress and improves distal nerve conduction in diabetic neuropathy.

Folic Acid : Help prevent or reverse diabetic neuropathy. Help counter and combat Alzheimer's disease.

Pyridoxine : Has anto-seizure and neuroprotective action.

Vitamin D3 : Total cholesterol, LDL-cholesterol and urine microalbumin : creatinine ratio & diabetic peripheral neuropathy is significantly associated with Vitamin D deficiency.

Diabetic Neuropathy

Drug Induced Neuropathy

Dementia Sciatica Syndrome

Post Herpetic Neuralgia
