

The Dependable Choice For **Acidity & Ulcer Pain**

Sucravax O

Sucralfate U.S.P. 1000mg + Oxetacaine B.P. 20mg Suspension

GERD

Stress Ulcer

Duodenal Ulcer

Reflux Oesohagitis

Sucralfate

- ✓ Useful in the treatment of gastric and duodenal ulcer, it is cytoprotective and able to increase the bioavailability of several growth factors, modulating the wound healing process.
- ✓ Reacts with gastric acid to form a long acting acid buffer for as long as 6 to 8 hours after a single dose.
- ✓ It also attaches to proteins on the surface of ulcer forming protective barriers at the ulcer surface, preventing further damage from acid pepsin & bile.

Oxetacaine

- ✓ Is a potent local anesthetic that is administered orally for the relief of pain associated with peptic ulcer disease or esophagitis.
- ✓ Is highly active even in highly acidic conditions.
