

Etodamp™ TH

Etodolac I.P. 400mg + Thiocolchicoside I.P. 4mg

- ✓ After extraction of impacted lower third molars, resultant swelling trismus and pain is more effectively controlled with Etodolac than with Ibuprofen.
- ✓ Etodolac exhibits anti-inflammatory effects mediated by Cox-2 inhibition and anti-allodynic effects that were Independent of Cox-2 inhibition.
- ✓ Thiocolchicoside is a preferred option over Tizanidine for the Low Back pain with muscle.
